GENUINE BENDIX® REMAN BA-921® HDEP COMPRESSOR

Genuine Bendix remanufactured compressors have less oil passing than the competition. Higher levels of oil passing may cause downstream contamination and potential component failure.

Don't get burned by inferior parts.

Only genuine Bendix® reman BA-921® HDEP compressors are:

- ✓ Remanufactured to OE clearances and specifications
- ✓ Tested to the highest standard using proprietary test specifications
- ✓ Expertly remanufactured to outlast any competitor

| Part No. | Description | Price |

| K095125G | Bendix Reman BA-921 HDEP Compressor Includes Drive Gear | \$592.99 |

EnduraSure® Spring Brakes

For fleets who want the ultimate endurance, there's the new Bendix® EnduraSure®-Pro Spring Brake. Our sealed option has a one-way valve that prevents contaminants from entering the chamber. This feature, coupled with other design improvements, gives you a built-to-last spring brake with performance you can count on, even in the worst of environments.

For performance you can count on, choose Bendix.

Stay on the road longer with the new EnduraSure® Spring Brake Series from Bendix —now with an even longer life sealed option — EnduraSure®-Pro.

Dust plug with integrated check valve prevents water and contaminants from entering park side

No drain holes, keeps contaminants out preventing corrosion, and extends life

Electroless/nickel park side push rod reduces the risk of leakage

PRESET® HUB ASSEMBLIES

PRESET PLUS®

The most advanced wheel hub in the industry, the PreSet Plus hub assembly saves time and money with simplified installation, high performance, and low maintenance.

PreSet Plus Bearing Spacer

ConMet's precision-machined spacer controls the spacing between the bearings, eliminating the need for manual adjustment. The induction-hardened ends ensure consistent contact between the spacer and bearings.

Long-Life Bearings

Held to tighter tolerances than the industry standard, ConMet tapered roller bearings are engineered for optimized contact and reduced stress concentration, resulting in better rolling contact and less friction.

Extended Life Wheel Seal

ConMet premium wheel seals withstand harsh road conditions, poor weather, and frequent braking, playing a vital role in the overall protection of the hub.

Magnetic Fill Plug and Easy Access Fill Hole

A fill hole is available on PreSet Plus drive and trailer hubs for quick and easy lubrication, while a standard magnetic fill plug helps with inspection of lubricant.

get a 5 year warranty when you purchase spindle nuts with a hub
