6000 & 7000 SERIES TOP PLATE

7000 SERIES TOP PLATE

55,000 lbs vertical load
Up to 140,000 lbs GCW
Approximate weight: 245 lbs

Experience the No-Slack advantage ... only from Fontaine

The 7000 Series offers all the benefits of Fontaine No-Slack® technology in a cast housing rather than the stamped steel housing featured in our 6000 Series. The 7000 model is also available as a blocked fifth wheel to accommodate frameless dump applications. This rugged workhorse is rated for moderate to severe-duty in both on-highway and off-highway applications.

6000 SERIES TOP PLATE

50,000 lbs vertical load
Up to 115,000 lbs GCW
Approximate weight: 220 lbs

Experience the No-Slack advantage...only from Fontaine

The 6000 Series features our exclusive No-Slack® self-adjusting lock technology in a lighter weight stamped steel housing rather than the cast steel housing used in our 7000 Series. The lock automatically adjusts to accommodate kingpin and lock wear so you can switch from trailer to trailer without making lock adjustments. Rated for standard to moderate duty on-highway use only, including tankers.

FEATURES

- 1 No Slack self adjusting lock gives you a snug, secure connection**
 - Switch from trailer to trailer hassle-free
 - Reduces shock inputs into the frame when braking and accelerating
 - Improves driver comfort
 - Reduces driver complaints
 - Extends service life of other components
- 2 Locking trigger helps minimize high-hitching**
 - Reduces driver frustration
 - Reduces tractor, trailer and tire damage
 - Saves expensive wrecker and clean up bills
- 3 Optional in-cab air release only opens when the parking brake is set and makes the driver's job easier**
- 4 Built in secondary lock gives you another layer of security**
- 5 Pull handle is the easiest to operate in the industry – No complicated opening sequence to remember**
- 6 Steel reinforced construction features a larger surface contact area for greater strength and stability**

STARTERS & ALTERNATORS

J180 Mount

Pad Mount

Meeting Today's Most Demanding Conditions

The PowerEdge™ 24PE 170A alternator is engineered to survive and thrive the harsh under-hood environment of heavy-duty Class 8 trucks with their extreme under-hood temperatures. That's why it's the ideal choice for today's commercial vehicles.

Superior Cooling Performance

Dual internal fans provide higher air flow within the alternator, quickly dissipating heat for lower operating temperatures.

Tested Under Extreme Conditions

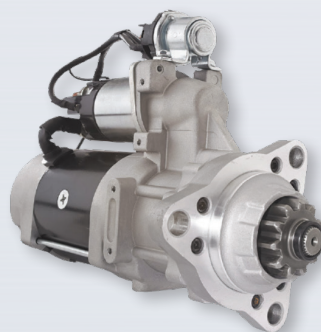

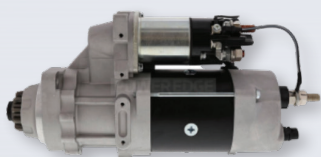

Internal components are tested for severe thermal heat fatigue to ensure our PowerEdge™ alternators are superior to the competition.

Part Number	Family	Amp	Mount	Price
212-0110	24PE	170	Pad	\$196.99
212-0101	24PE	170	J180	\$196.99

Performance. Quality. Competitively Priced.

A commercial truck is the ultimate work tool. Its role is to perform a task, be productive and in the end, help companies make a profit. For that to all happen, first it has to start! That's where the PowerEdge™ HD starter gives you the edge. PowerEdge starters benefit from over 70 years of engineering and manufacturing experience supplying auto and truck makers with electrical components. So, the next time you need a new starter, choose the PowerEdge HD – it's the right choice.

- Competitively priced and more durable compared with other brands.
- Rugged design and powerful performance.
- Every unit tested to meet factory-original performance.
- Over Crank Protection (OCP) constantly monitors the internal temperature and prevents thermal damage to the starter.
- Integral Magnetic Switch (IMS) reduces voltage drop and ensures the solenoid receives maximum voltage under all starting conditions.*
- Rotatable nose cone.
- 100 percent new units. Not rebuilt. No core charge.
- One-year/unlimited miles warranty.
