FEATURES & BENEFITS

Superior Rubber Chemistry

Chemical additives infused into natural rubber walls provide exceptional ozone resistance, resulting in less flex-cracking and longer service life.

Reduced Weight

Innovative materials and design technology allow Super Cushion® Air Springs to weigh less than competitive products.

Bracket Dimples

Non-elongated design provides a more secure mounting for the air spring, increasing longevity and reducing vibration and misalignment.

Internal Wall Cord

High-strength, extra-tight cord provides exceptional wall and internal splice strength.

Comfort

Reduced driver fatigue and increased safety.

Equipment Longevity

Improved vibration isolation reduces wear and tear on truck and trailer components.

Fuel-Efficient

Super Cushion® air springs weight savings mean more miles per gallon.

Part Number	Firestone Cross Reference #	PRICE
1R12-069	W01-358-9069	\$139.99
1R12-1097	W01-358-8864	\$207.99
1R13-159	W01-358-8709	\$158.99

PRODUCT IDENTIFICATION SYSTEM

Number of convolutions
1 Single Convolute
2 Double Convolute
3 Triple Convolute

Type of Air Spring
B – Bellows
R – Rolling Lobe
S – Sleeve
(Beadles Rolling Lobe-Type)

This is the nominal outside working diameter of the air spring assembly, in inches. (It is not the maximum diameter.)

These numbers represent a unique identifier for this particular air spring

MONROE MAKES IT

APPLICATION-ENGINEERED DURABILITY FOR THE LONG HAUL

Gas Magnum Shocks

Large bore shock absorbers built for durability, vehicle stability and driver comfort to handle the demands of high-mileage and severe use, delivering reduced cost per mile. Application-engineered for hardworking class 3-8 commercial trucks, school and transit buses, coaches and off-highway vehicles

Built to Last:

Heavy duty nitrocarburized rod (non-dust shield units only) and sintered iron piston enhance durability for longer service life while self-lubricating fluid seal reduces friction against piston rod to reduce wear

Improves Performance:

Nitrogen gas charge maintains tire-to-road contact for improved ride and handling by reducing aeration and shock fade

Longer Service Life:

Larger bore and bigger 2-in. reserve tube work together to hold more oil for greater capacity to allow the shock to work efficiently for controlled ride and longer service life

Promotional pricing valid through 4/30/23

POINT SPRING & DRIVESHAFT CO. LOCATIONS
